COMPANY PROFILE

ABOUT US

BRT is a one-stop provider of IT infrastructure, cybersecurity, networking, and systems solutions. We help businesses simplify IT operations, strengthen security, and achieve their goals through reliable, innovative, and cost-effective technology services.

MISSION

Creating effective communication and productivity touchpoints for our nation focus on digital transformation and robust IT infrastructure

VISION

To make IT Simpler, More Secure and Valuable.

MANAGEMENT PHILOSOPHY (I.Q.C.)

Integrity: To lead with honesty and integrity

Quality: To consistently provide high-quality products and services.

Community: Build a strong, supportive community around shared values.

FOUNDER PROFILE

Founded in 2016 by Alex Siow, BRT was built on his passion for technology and hands-on expertise. Starting his career as a computer repair and networking technician, Alex advanced through continuous learning, earning a diploma and industry certifications from Microsoft and Cisco. Today, he leads a team of skilled engineers specializing in servers, virtualization, networking, cybersecurity, Microsoft 365, and structured cabling. Committed to nurturing future talent, Alex also supports ITE students through sponsorships and employment opportunities.

ADVANCED NETWORK INSTALLATION & MAINTENANCE

BRT delivers advanced networking solutions, including 1G/10G networks, VLANs, Wi-Fi 6/7, IPsec and WireGuard VPNs, Dual-WAN setups, and multi-gigabit infrastructure. We provide secure, scalable, and reliable connectivity tailored to business needs.

Our Founder and Director, Alex Siow, has extensive experience in IT systems, network infrastructure, cybersecurity, and surveillance. Supported by ITE-trained technicians and backed by the TP-Link Omada Expert Certification, BRT combines technical expertise with hands-on experience across hundreds of customer environments in Singapore.

SECURITY & SURVEILLANCE INSTALLATION & MAINTENANCE

We provide CCTV and door access control solutions, including design, installation, integration, and maintenance for residential, commercial, and industrial sites.

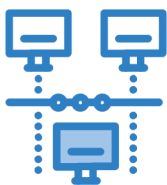

Alex and his team are Hikvision-certified professionals with the expertise to deliver reliable, high-performance security systems that enhance protection and prevent unauthorized access.

CYBERSECURITY SOLUTIONS

BRT has deployed endpoint security, firewalls, and managed cybersecurity services for hundreds of clients. We also hold a Managed Security Operations Centre (SOC) Monitoring Service Licence from the Cyber Security Agency (CSA) of Singapore.

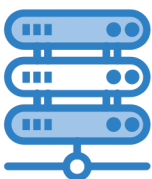

Cybersecurity is built into every solution we deploy, including CCTV and access control systems, to help protect networks, systems, and data from evolving threats.

WORKSTATION, SERVER & VIRTUALIZATION INSTALLATION & MAINTENANCE

We specialize in the deployment and support of workstations, standalone servers, clustered environments, and virtualization platforms, delivering secure and scalable IT infrastructure.

With a background in systems administration and server deployment, Alex leads a skilled team that provides end-to-end solutions including servers, virtualization, storage, backup and disaster recovery, Microsoft environments, and network integration.

FIBER OPTIC & STRUCTURED CABLING SOLUTIONS

BRT provides structured cabling and fiber optic solutions, including Cat6, Cat6A, Cat7, and Cat7A cabling, patch panels, network racks, cable management, and fire-stopping services.

We hold a Telecommunication Wiring Installer Class Licence (Licence No. WW000910), enabling us to design, install, test, certify, and maintain copper and fiber optic network infrastructures that are reliable, scalable, and future-ready.

OUR PRODUCTS & SERVICES

NETWORK INFRASTRUCTURE

Supply, design, installation, and maintenance

- Enterprise Network: 1G/10G/20G
- WIFI 6/7
- Routing (L3)
- Switching (L2/L3)
- VLAN
- Heatmap & Design
- Maintenance:
 - Onsite Technical Support, 4 hours response
 - Remote Technical Support, 2 hours response
 - Preventive Maintenance

CCTV/SECURITY INFRASTRUCTURE

Supply, design, installation, and maintenance

- IP CCTV, NVR, Integration and Monitoring Service
- Facial Recognition and Door Access Security
- Routing (L3)
- Switching (L2/L3)
- VLAN
- Heatmap & Design
- Maintenance:
 - Onsite Technical Support, 4 hours response
 - Remote Technical Support, 2 hours response
 - Preventive Maintenance

IT SYSTEM INFRASTRUCTURE

Supply, design, installation, and maintenance

- Wins 11 Pro, Wins Server 2022, Microsoft 365 and Intune, traditional domain controller/AD and GPO.
- Desktop PC, Notebook, Printer, and Multi Function Printer, Label Printer.
- Network Attached Storage (NAS)
- System design
- Maintenance:
 - Onsite Technical Support, 4 hours response
 - Remote Technical Support, 2 hours response
 - Preventive Maintenance

CYBER SECURITY INFRASTRUCTURE

Supply, design, installation, and maintenance

- Endpoint Security for PC and server
- Firewall
- Monitoring service
- Managed Detection & Response and Incident Reporting.
 - Onsite Technical Support, 4 hours response
 - Remote Technical Support, 2 hours response
 - Preventive Maintenance

FIBER OPTIC & STRUCTURE CABLING

Supply, design, installation, and maintenance

- CAT6/CAT6A/CAT7 cabling, insulation material
- Fiber Termination Point (FTP) relocation.
- Racking, patching and cable management
- Cable testing and labeling and reports.

WHY CHOOSE US?

EXPERIENCED & CERTIFIED TECHNICAL TEAM

Our engineers are certified in IT systems, networking, Wi-Fi, cybersecurity, and security & surveillance, holding industry-recognized certifications including CCNA, TPNA, OCNA, TPSA, and TP-Link Omada Expert.

END-TO-END PROJECT MANAGEMENT & SUPPORT

From consultation and design to deployment, testing, commissioning, and after-sales support, Alex Siow and his team manage every stage of the project. We work closely with clients, consultants, and contractors to ensure smooth implementation and timely resolution of technical challenges.

ON-SITE, REMOTE & PREVENTATIVE MAINTENANCE

We provide on-site support, remote troubleshooting, and preventive maintenance to maximize system uptime, reduce disruptions, and keep your IT infrastructure performing at its best.

PROVEN TRACK RECORD

With over 500 successful projects completed across condominiums, landed homes, offices, clinics, restaurants, and commercial premises, BRT has built a reputation for reliable, high-quality service.

STRONG VENDOR PARTNERSHIPS

Our close relationships with leading technology vendors provide direct access to Level 2 and Level 3 technical support, enabling faster issue escalation, reduced downtime, and expert technical assistance when needed.

Logos of partner companies: Ubiquiti, Cisco, HP, Dell, Eset, TP-Link, VIGI, Omada, Microsoft, Acronis, Yeastar, Grandstream.

OUR PROJECTS

INDUSTRIES SERVED:

- ✓ Medical
- ✓ F&B
- ✓ Semiconductor
- ✓ Recycling Warehouse
- ✓ Retail
- ✓ Dormitory
- ✓ Construction
- ✓ HDB, Condo, and Landed Properties

SINGAPORE BREAST SURGERY CENTRE (SBSC)

IT Portfolio:

- 20 IP camera and NVR
- Door access control
- Network: VLAN, WLAN
- Wireless Access Point (WAP)
- Windows server 2019 and workstations
- NAS storage
- Printers and Copier
- IP Telephony System
- Structure cabling
- Racks and patch management
- Firewall and Endpoint Security for server and workstation
- Annual IT Maintenance Support

WF INDUSTRIALOPOLIS PTE LTD

IT Portfolio:

- Network: VLAN, WLAN
- Wireless Access Point (WAP)
- Rack and Patch Management
- 15 IP camera and NVR
- Firewall and Endpoint Security for workstation

HEYAN DINING PTE LTD

IT Portfolio:

- Many IP camera and NVR
- Monitoring services
- Network: VLAN and WIFI
- Wireless Access Point (WAP)
- Rack and patch management
- Firewall
- Annual Security and Network Maintenance Service

METALO INTERNATIONAL PTE LTD

IT Portfolio:

- 14 ultra zoom thermal cameras
- 4 door access control
- Mobile cameras with stand
- Rack and patch management
- Network: VLAN and WIFI
- Firewall
- 6 months Network & Security Maintenance Support

OUR CLIENTS' TESTIMONIALS

BRT helped with designing, installing and integrating the IT hardware & network connectivity for the clinic management system, modality, and PACS in my new Radiology Centre. They are proficient, experienced and professional. I highly recommend any medical providers who require help with the IT infrastructure to approach BRT for they have a strong record in the medical imaging field.

**SOMERSET
IMAGING CENTRE**
Living The Fullness Of Life

Dr Wong Siong Sung
Senior Consultant Cardiologist

Our business comprises of 6 separate locations, having Alex and his IT engineers supporting us with their knowledge, professionalism and advice has greatly increase the efficiency of our hardware needs and operating systems. No hard selling at any time and will only recommend what is beneficial for our business needs. They are on call 24/7 and nothing is too much for them. Very reliable and prompt with time keeping. We are very pleased with the working relationship and will continue to do so. Well done and keep up the good work.

**Hand Surgery
Associates**

Miss Cindy Dowse
Senior Group Clinic Manager

BRT has been managing our clinic's IT infrastructure. Alex and his team of Engineers are professional and responsive. I would certainly recommend their IT services to future clients in the medical field given their strong track record and experience.

Louie Morelos
Group Manager

We are a medical group with GPs and specialists centers. Alex and his team of IT engineers managed our IT infrastructure proficiently and very responsive. Their 24 hours hotline give us the help we needed during emergency of our IT system. We are impressed and satisfied with their excellence services and grateful to have Alex and his team as our IT support.

**SINGAPORE
PAINCARE
HOLDINGS**
Bringing pain relief closer to you

Phick Suan
Group Financial Controller

**VASCULAR &
INTERVENTIONAL CENTRE**

Miss Fauziah
Group Clinic Manager

BRT helped with designing and installing the IT infrastructure for our new day care surgery center. On top of that, Alex and his team were tasked to design and providing IT system integration with our new modality and clinic management system. They have a strong track record in the medical imaging field and understand our requirement. They are proficient and responsive. I highly recommend any healthcare providers to look for Alex who has deep knowledge in the healthcare IT infrastructure set-up for small or large medical enterprises.
